

SINCHANA NANDHEESHA

Bengaluru, Karnataka | +91 8904576606 | sinchanareddyn@gmail.com
LinkedIn: linkedin.com/in/sinchananandheesha | GitHub: github.com/sinchreddy

CAREER OBJECTIVE

Computer Science graduate passionate about software engineering, AI-driven systems, and modern application development. Skilled in Android development, full-stack technologies, and Generative AI, with practical experience gained through internships, research collaboration, and real-world projects. Driven to create impactful, scalable, and meaningful digital experiences through technology.

EDUCATION

B.E. – Computer Science & Engineering
New Horizon College of Engineering, Bengaluru

Pre-University Course – Science
Sri Chaitanya PU College, Bengaluru

2022 – 2026 | CGPA: 9.03 / 10

2020 – 2022

TECHNICAL SKILLS

Languages Python, Java, Kotlin, C, JavaScript
Frameworks Jetpack Compose, ReactJS, React Native, Flask, Django (Basic), HTML, CSS
Databases MySQL, Firebase | Concepts: OOP, DBMS, Operating Systems, Computer Networks
Tools Android Studio, VS Code, IntelliJ IDEA, GitHub, Figma, Linux

INTERNSHIP EXPERIENCE

Android Developer Intern – MindMatrixEd Feb 2026 – May 2026

- Built Android features using Jetpack Compose and Generative AI concepts; contributed to UI development, mobile responsiveness, and end-to-end feature integration.
- Performed testing and debugging across simulators and real devices to ensure stable, high-quality releases.

Software Engineer Intern – Lokram Technologies Pvt. Ltd. Aug 2025 – Jan 2026

- Developed the E-Store mobile app and website using ReactJS, React Native, and REST APIs with payment gateway integration.
- Built responsive interfaces across devices and contributed to QA, debugging, and user experience improvements.

Generative AI Intern – Prodigy InfoTech Nov 2025

- Explored GPT-2 fine-tuning, Stable Diffusion, DALL-E mini, Neural Style Transfer, and pix2pix GANs for text and image generation tasks.

Undergraduate Research Assistant – New Horizon College of Engineering Feb 2023 - Apr 2023

- Collaborated with faculty on research activities related to Forest 4.0 and IoT-based smart environmental systems.
- Contributed to research exploration involving IoT technologies for forest monitoring and intelligent ecosystem management.

PROJECTS

Hridaya – Emotional Empathy AI Companion | Kotlin, Jetpack Compose, Generative AI

- AI-powered emotional support app delivering personalized, empathetic conversations; integrated Generative AI for emotionally aware responses.
- Designed a smooth Jetpack Compose UI focused on well-being and meaningful user engagement.

Santhe-Connect – AI-Based Tourism Platform | Kotlin, Jetpack Compose, Firebase, Generative AI

- Helped tourists discover Karnataka's local markets, food, and homestays; connected them with local vendors through smart AI-driven discovery.

AutoEval – Automated Evaluation & Assessment System | Python, Django, MySQL, HTML, CSS

- Web platform for automated student scoring, performance analytics, teacher dashboard, and test management — reducing manual evaluation effort.

Symptom Analyzer | Python, Flask, MySQL

- Analyzes user-input symptoms to suggest possible conditions and maps them to relevant medical departments via an intuitive search interface.

RESEARCH PUBLICATION

"Accurate Evaluation System for Web-Based Exam Management" — Research on automated evaluation systems, performance analytics, and digital assessment management.

CERTIFICATIONS & ACHIEVEMENTS

- Fundamentals of Artificial Intelligence – IIT Guwahati
- Ethical Hacking Certification – NSDC / Internshala
- NASA Space Apps Challenge 2024 – Galactic Problem Solver
- Accelerate Her in Tech – Student Hackathon (Nokia)
